# 2014-15

Medical Assistant Syllabus Advance Course MA101-MA201-X301

#### Introduction:

At Prestige Medical Solutions we are fully vested in helping students succeed. Our vision is to be a great place to learn, where people are inspired to better themselves through education and be trained to exceed the expectations of their prospective employers. To help us establish a safe, enjoyable, and rewarding classroom experience we have set non-negotiable site policy and procedures. They cover class etiquette, uniform/identification requirements, and other material relevant to each student. Each student is expected to become familiar with our standards, and individual classroom requirements prior to attending class.

#### **Course Overview:**

MA 101: This course provides an introduction to theory and foundational skills in medical assisting for the student. Content includes lecture and discussion on the role of the medical assistant, medical terminology, safety, human anatomy and physiology, screening, medical office emergencies, and patient education and communication.

MA 201: The course is designed to provide preparation for entry-level positions in medical assisting: Theory and laboratory instruction in assisting the physician/practitioner in exam-room procedures, laboratory procedures, pharmacology, providing medications, minor office surgery, and nutrition.

X 301: Students are required to complete 160 hours of an externship at a site approved by Prestige Medical Solutions in order to earn a Certificate of Completion. Students must successfully complete MA 101 & MA 201 prior to X 301.

## **Purpose:**

This course will prepare the Certified Medical Assistant to work in an advance clinical environment and healthcare setting.

## **Learning Objectives:**

#### **MA 101:**

#### **LECTURE CONTENT:**

Module A: Orientation to Program & Introduction to Medical Assisting 10%

Module B: Terminology, Anatomy, and Physiology 20%

Module C: Safety 20%

Module D: Medical Office Emergencies/CPR 25% Module E: Patient Education/Communication 25%

## By Conclusion of this course students will be able to:

- 1. Spell and define key terms.
- 2. Explain why early innovations in science and medicine were initially rejected or labeled as quackery.
- 3. Identify significant medical advances during the past 400 years that provided the foundation for today's orthodox health care practices.
- 4. Discuss forms of holistic medicine.
- 5. Discuss the growth and history of the medical assisting profession.
- 6. Identify members of the health care team.
- 7. Define the general term "doctor" and list three types of professional doctors.
- 8. List and define the main functions of at least three types of health care.
- 9. Identify the scope of practice for the medical assistant in the State of NJ.
- 10. List the professional organizations for medical assistant and their purpose.
- 11. Define the professional qualifications and duties of the medical assistant.
- 12. Identify desirable character or personality traits needed to become a successful medical assistant.
- 13. Demonstrate proper professional appearance.
- 14. Determine the general requirements for obtaining and maintaining a license to practice medicine.
- 15. Explain how the physician-patient contract is created.
- 16. Describe the legal obligations of each party once a contract is created.
- 17. Outline the circumstances under which a physician may be held liable in a malpractice suit.
- 18. Explain the legal aspects of medical records.
- 19. Describe the physician and patient's bill of rights.
- 20. Specify an example of the principles of medical ethics for physicians and medical assistants.
- 21. Identify ways to decrease your chances of being sued.
- 22. List three essential components of communications.
- 23. Discuss three sources of communication breakdown.
- 24. Give various examples of verbal and nonverbal communication.
- 25. State three factors that influence receipt of a message.
- 26. Identify each of the five levels of Maslow's Hierarchy of Needs.
- 27. Identify defense mechanisms.
- 28. Describe the types of telephone communication and special features.
- 29. Describe techniques used for effective telephone communications.
- 30. List nine factors that will enhance customer service and discuss the issue of perception in multiculturalism.
- 31. Discuss issues related to multicultural personal contact.
- 32. Identify the dynamics of prejudice.
- 33. Explain why cultural bias (stereotyping) affects the quality of patient care.
- 34. Know and understand the cultural factors that may affect patient care.
- 35. Identify the major responsibilities of the medical assistant student.
- 36. Discuss the value of high standards for the medical assistant student.
- 37. Describe the relationship between achievement standards as a student and future standards

as a medical assistant.

- 38. Outline effective study habits that improve student learning.
- 39. Develop power reading skills that will lead to better methods of memorizing material for long-term recall.
- 40. Discuss attitudes toward studying and current study skills habits.
- 41. Identify learning styles.
- 42. Demonstrate calculation skills.
- 43. Calculate a correct sum when adding whole numbers.
- 44. Calculate a correct difference when using subtraction of whole numbers.
- 45. Calculate a correct product when using multiplication of whole numbers.
- 46. Calculate a correct quotient when using division of whole numbers.
- 47. Demonstrate competency in obtaining correct answers when working with decimals.
- 48. Define symbols and terms.

#### MA 102:

#### **LECTURE CONTENT:**

Module A: Introduction to Skills Lab and Exam Room Procedures 15%

Module B: Specialty Procedures/CPR 15%

Module C: Pharmacology 20%

Module D: Minor Office Surgery 10% Module E: Laboratory Procedures 25%

Module F: Client Teaching/Communication 15%

## By Conclusion of this course students will be able to:

- 1. Spell and define the key terms.
- 2. Differentiate between standard precautions and transmission-based precautions.
- 3. List various examples of requirements when following standard precautions.
- 4. Discuss how to properly clean and decontaminate spills of blood or body fluids.
- 5. Discuss the disposal of medical wastes, including the information to be found on the label of each container.
- 6. Determine the relative risk of disease transmission and the type of medical waste generated and its disposal.
- 7. Define a microorganism and give examples of various types of microorganisms.
- 8. List several ways the body can defend itself against disease.
- 9. List the body's protective mechanisms to infection.
- 10. Identify and describe conditions that promote the growth and spread of microorganisms. Differentiate between direct and indirect transmission and give an example of each.
- 11. Identify and describe conditions that promote the growth of pathogens.
- 12. List, in order, the six links in the chain of infection.
- 13. Differentiate between medical and surgical asepsis.
- 14. Devise a workplace information sheet on the levels of infection control.
- 15. Explain how proper hand washing helps prevent the spread of microorganisms and when hand washing should be performed.
- 16. List several guidelines to follow in order to maintain medical asepsis.
- 17. List selected infectious diseases, including the mode of transmission, signs, and symptoms of each.
- 18. Discuss the purpose, concerns, and selected regulations as related to infection control and the medical assistant.

- 19. Differentiate, identify, list and discuss the principles essential to safely, accurately, and efficiently prepare clients for examinations.
- 20. Differentiate, identify, list and discuss the principles essential to safely, accurately, and efficiently perform clinical laboratory testing.
- 21. Differentiate, identify, list and discuss the principles essential to safely, accurately, and efficiently assist the physician with special procedures.
- 22. Differentiate, identify, list and discuss the principles essential to safely, accurately, and efficiently assist the physician with minor surgery.
- 23. Calculate, identify, list, and discuss the principles essential to pharmacology and medication administration.
- 24. List, define, identify, and discuss principles of pharmacology necessary to safely provide medications to clients.
- 25. State three factors that influence receipt of a message.
- 26. Identify each of the five levels of Maslow's Hierarchy of Needs.
- 27. Identify defense mechanisms.
- 28. Describe the types of telephone communication and special features.
- 29. Describe techniques used for effective telephone communications.
- 30. List nine factors that will enhance customer service and discuss the issue of perception in multiculturalism.
- 31. Discuss issues related to multicultural personal contact.
- 32. Identify the dynamics of prejudice.
- 33. Explain why cultural bias (stereotyping) affects the quality of patient care.
- 34. List cultural factors that may affect patient care.
- 35. Identify the major responsibilities of the medical assistant student.
- 36. Discuss the value of high standards for the medical assistant student.
- 37. Describe the relationship between achievement standards as a student and future standards as a medical assistant.
- 38. Outline effective study habits that improve student learning.
- 39. Develop power reading skills that will lead to better methods of memorizing material for long term recall.
- 40. Discuss attitudes toward studying and current study skills habits.
- 41. Identify learning styles.
- 42. Demonstrate calculation skills.
- 43. Calculate a correct sum when adding whole numbers.
- 44. Calculate a correct difference when using subtraction of whole numbers.
- 45. Calculate a correct product when using multiplication of whole numbers.
- 46. Calculate a correct quotient when using division of whole numbers.
- 47. Demonstrate competency in obtaining correct answers when working with decimals.
- 48. Define symbols and terms

#### **Materials:**

Main Textbook: Bonewit-West & Hunt & Applegate

<u>Today's Medical Assistant: Clinical and Administrative Procedures</u>

Review Textbook: Bonewit-West & Hunt

Today's Medical Assistant: Clinical and Administrative Procedures, 2<sup>nd</sup> Edition

<u>In-Class Material:</u> Numerous handouts and online material will be provided

## **Medical Assistant Program Schedule:**

Mondays (MA 101) 9:00 AM – 11:30AM (from 01/21/14 to 05/25/14) 1:00 PM – 2:50 PM

Tuesdays & Wed (MA 201) 8:30 AM – 3:30 PM Thursday (MA 101) 9:00 AM – 11:30 AM

#### **Course Lecture**

Mondays 9:00 AM to 11:30 AM

Tuesdays & Wednesdays: 8:30 AM to 10:20 AM

Thursdays: 9:00 AM to 11:30 AM (1/2 semester) 1:30 PM to 3:20 PM

**Clinical Skills Lab** 

Tuesday & Wednesday: 10:30 to 12:20 & 1:00 to 3:20 PM

#### **Externship (Summer Session)**

Monday – Friday: the schedule may be as short as 40 hours per week times 4 weeks to equal 160 hours. However schedules may vary widely depending on facilities' accommodations and needs. For example the externship may also be 8 weeks of 20 hours per week or 10 weeks of 16 hours per week. Students must be flexible with variable schedules.

Please see the calendar below for the class and exam schedule. While we try to maintain this schedule, it is subject to changes and adjustments as necessary to successfully meet the course objectives.

## **Grading:**

#### **Out of Class Assignments:**

Students must devote to over 10 hours/week on assignments including but not limited to:

- Assigned text readings and related health articles.
- Workbook assignments.
- Computer tutorials.
- Practice exams.
- Project Preparation
- Report Preparation
- Written Assignments
- Study

#### **Reading and Workbook assignment:**

Please read the assigned chapters prior to the date that the chapter is calendared. Please complete the study guide assignments for each chapter after you have read the chapter. Please be sure to bring your Study Guide with the chapters completed on each of the quiz days with the chapters completed that you will be tested on. If you do not turn in your completed study guide prior to the administration of the quiz, you will receive a 20% reduction in the credit you would have earned had the quiz been completed and submitted prior to the quiz.

### **Quizzes and Exams:**

A grade of "C" or 75% or better in all courses must be attained in order to progress to externship (X 301)

A theory examination schedule will be given to the student at the beginning of the course.

An instructor may choose to add short written quizzes, written papers, student presentation, etc. and assign points to them.

Theory grades are calculated on a point system and converted to a percent score.

EXAMPLE: If 40 points is the # of points you answered correctly and the possible maximum score is 50 points. This 40 is divided by 50 then your grade is 40/50 or 0.80 which translates to 80% which would be a B.

Important: Prestige Medical Solutions maintain strict scholastic standards. The grading standard of the M.A. Program on an ABSOLUTE SCALE is as follows:

Theory Clinical/Skills Lab Grade Grade Point Average

100 – 90 Satisfactory (A)

89 – 80 Satisfactory (B)

79 – 75 Satisfactory (C)

74 - 60 Unsatisfactory (D)

59 - below Unsatisfactory (F)

A grade of "C" or better is necessary to pass any given course. At the midterm, a student doing less than "C" work in theory will be given notification of academic deficiency. A student whose clinical performance is not satisfactory may be given a remediation plan noting areas needing improvement and by what date the improvement must be made.

Classroom Conduct/Student Responsibility: Please refer to the adopted student
